— THE PAGE

WHAT'S ON THE PROJECTS PAGE

Every job you're running shows up as a card, with the numbers you need right on it.

1 Active and archived

5 Project templates

2 Read a card

6 Template tasks

3 Create a project

7 Template team and folders

4 Job details

8 Forms and statuses

01

ACTIVE, ARCHIVED AND SEARCH

PROJECTS

ADMIN

Keep the list clean and find any job fast.

01 **Active** shows the jobs you're running now.

02 **Archived** holds finished jobs. Archive a job when it wraps up and it drops off your active list.

03 **Search projects** finds a job by name.

04 **Templates** and **Create Project** sit top right.

02

READ A PROJECT CARD

CARD

ADMIN

Each card gives you the job at a glance.

- 01 **Project name**, project number and customer.
- 02 **Job site address**.
- 03 **Tasks** done out of total, and how many **team members** are on the job, with their avatars.
- 04 **Start date** and **expected end date**.
- 05 Two shortcuts bottom left: **Drawings** and **Tasks**.

TAGS

Tags like "Residential" or "Invoiced" show on the card so you can spot a job's status fast.

03

CREATE A PROJECT

NEW PROJECT

ADMIN

Press **Create Project** to start a new job.

- 01 Template:** start from one of your templates, or leave it blank.
- 02 Project name.**
- 03 Project code:** leave it blank and it fills in from your project settings (e.g. PR-2026-001), or type your own.
- 04 Customer:** pick one, or press + to create a new customer right there.

The screenshot shows a 'New Project' modal window with the subtitle 'Set up your project basics'. The form contains several sections: 'TEMPLATE' with a dropdown menu; 'PROJECT NAME' with a text input field; 'PROJECT CODE' with a text input field and a hint 'Leave blank to auto-generate (e.g. PR-2026-001)'; 'CUSTOMER' with a dropdown menu showing 'Customers' and a '+' button; 'STATUS' with a dropdown menu; 'TEAM MEMBERS' with a dropdown menu; 'JOB SITE' with a text input field and two location pin icons; and 'SCHEDULE' with two date input fields, both showing '2026/09/26'. At the bottom, there are 'Cancel' and 'Create Project' buttons.

FILL IN THE JOB DETAILS

NEW PROJECT

ADMIN

The rest of the form sets up who, where and when.

- 01 **Status:** where the job stands.
- 02 **Team members:** who's on the job.
- 03 **Job site:** the address, with a map pin.
- 04 **Schedule:** start and expected end date.
- 05 **Tags** and a **Description**, then press **Create Project**.

PROJECT TEMPLATES

TEMPLATES

ADMIN

Set a job up once, then reuse it on every new project.

- 01 Press **Templates** on the Projects page, then **New Template**.
- 02 Build as many as you want: one per job type works well.
- 03 The list shows how many tasks, members, folders and forms each template carries.
- 04 Use the icons to edit, copy or delete a template.

Project Templates

Reusable templates with tasks, folders, members and forms

+ New Template

Name	Status	Tasks	Members	Folders	Forms	
Residential Job	Published	0	6	3	4	

Records per page: 5 1-1 of 1

06

TEMPLATE INFO AND TASKS

TEMPLATES

ADMIN

Start with the basics, then pre-load the task list.

- 01 **General:** template name, description, project manager, currency, timezone and tax settings.
- 02 **Tasks:** add each task with a priority, a start day and a due day, counted from the project start.
- 03 Turn on **Published** to make the template available when you create a project.

07

TEAM AND DRAWING FOLDERS

TEMPLATES

ADMIN

Decide who's on the job and how drawings are filed before it starts.

- 01 **Team:** tick the people who get added to every project built from this template.
- 02 **Drawing Folders:** create the folders each job needs, like "Architectural Phase 1".

08

FORMS AND STATUSES

TEMPLATES

ADMIN

Assign the forms and set the workflow for every new job.

- 01 **Forms:** pick single forms, or turn on **Entire folder** so any new form added to that folder is included automatically.
- 02 **Status Configuration:** set and reorder the statuses for tasks, RFIs, change orders and purchase orders.
- 03 Press **Add Status** to create your own.

SET ONCE

Every project built from this template starts with the tasks, team, folders, forms and statuses already in place.

The screenshot shows the 'New Template' configuration page with the 'Forms' tab selected. The page title is 'New Template' with a subtitle 'Configure tasks, team, folders, forms and statuses for new projects'. A 'Published' toggle is in the top right. The navigation bar includes 'General', 'Tasks', 'Team', 'Drawing Folders', 'Forms' (active), and 'Status Configuration'. The 'Template Forms' section has a subtitle 'Select forms or entire folders to assign when projects are created from this template. Folder selections are live — new forms added to a selected folder will be included automatically.' It lists a 'Safety' folder with 4 forms and four individual forms: 'Daily Hazard Assessment', 'Boom lift: Pre-Shift Inspection Checklist', 'Fall Protection Equipment Inspection Checklist', and 'Scissor Lift: Pre-Shift Inspection Checklist'. Each has a checkbox and an 'Entire folder' toggle.

The screenshot shows the 'New Template' configuration page with the 'Status Configuration' tab selected. The page title is 'New Template' with a subtitle 'Configure tasks, team, folders, forms and statuses for new projects'. A 'Published' toggle is in the top right. The navigation bar includes 'General', 'Tasks', 'Team', 'Drawing Folders', 'Forms', and 'Status Configuration' (active). The 'Status Configuration' section has a subtitle 'Define and organize the workflow states for various project entities.' and an '+ Add Status' button. The 'Tasks' section shows a list of status cards: 'Not Started' (Default), 'In Progress' (Custom), 'Ready for Review' (Custom), 'Delayed' (Custom), and 'Completed' (System). Each card has a drag handle on the left.
